

(a)

confirmed holdout

T1 reservoir quality

regression
metric: ↓ MAE
evidence: reusable
holdout
scope: known-holdout
confirmation

(b)

confirmed holdout

T2 hydrocarbon pay

classification
metric: ↑ AP / ↓
Brier
evidence: reusable
holdout
scope: known-holdout
confirmation

(c)

confirmed holdout

T3 productivity

regression
metric: ↓ MAE
evidence: reusable
holdout
scope: known-holdout
confirmation

(d)

confirmed holdout

T4 water breakthrough

classification
metric: ↑ AP / ↓
Brier
evidence: reusable
holdout
scope: known-holdout
confirmation

(e)

not feasible

T5 remaining oil infill

status
metric: status only
evidence: blocked by
contract
scope: no valid label
contract
reason: proxy only

(f)

blocked

T6 porosity

status
metric: status only
evidence: blocked by
data
scope: no dev-only
feature source
reason: no dev-only
source

(g)

blocked

T7 permeability

status
metric: status only
evidence: blocked by
data
